

Picking up/Dropping off students inside the school

Our goal at Liberty Ridge is to provide opportunities where students can be independent and successful at the same time. A student arriving at school and transitioning to the locker is one of these opportunities. The same can be said for preparing to go home at the end of the day. Doing so allows the student to build the skills and confidence that can lead into other areas of their life. Because we want to foster these skills, we ask that parents drop off/pick up their children in the commons. In the rare occasion when a student needs help bringing a classroom project into school, we ask that the parent first sign into the office and obtain a yellow volunteer sticker.
